For Surveyor— F. H. BENSON. For Coroner—N. F. DONALDSON. For Co. Commissioner—2d Dist.— J. R. RITNER.

DR WARNER is now arranging matters so that Butler Buchanar will be found on the second floor of the First National Bank building after January 6, 1896. Mr. Buchanan will then be simply an abstractor and will have no use for the farmers he now so graciously greets.

THE nomination of H. L. Gould of Ogalalla, as one of the regents of the state university is a recognition of the republicans of this section of the state that we are glad to see. Mr. Gould is an excellent man the people who elected him. He for the position and will receive a large complimentary vote in his own and adjoining counties.

THE populists will conduct school house campaign, hoping that by getting a crowd together they can arouse a little enthusiasm. In this they will hardly succeed for even that greatest of all populist speakers, Herr Most Mang. could not arouse a spark of enthusi asm in the recent county conven-

JUDGE RAY will not make a canvass of the county for the reason that he is too conscienscious to close his office in order to gain a few votes He was elected by the people to administer the duties incumbent upon the county judge and these he wil not neglect. But a majority of the voters in the county are satisfied that Judge Ray is the proper person for county judge and will vote ac cordingly.

JUDGE HINMAN is done with th populist party, and after election Judge Neville will be nothing less than a democratic statesman without a job. So long as the popwere strong in numbers Judge Neville was willing to be one of them at a salary of \$2,500 a year, but deprive the Judge of this yearly stipend and see how long he will esponse the populist cause. The remainder of the pop officials are just the same -- they are willing to join any party that will guarantee them

In speaking of H. M. Grimes for district judge, the Sidney Telegraph says: Mr. Grimes has had a very extensive practice in all the eastern part of this district and in the counties lying to the east and north of it and has a good record in the supreme court of our state. He is a lawyer not only in name but in fact, and has few equals and no superiors in the district. His integrity as a man and a lawyer has never been queswhole people, knowing neither law as he finds it and believes it to be. Republicans certainly will and all others should give him their hearty support.

It is a Nevada agricultural society that is now preparing to make up a purse of one hundred thousand dollars to secure the presence of Mr. Corbett and Mr. Fitzsimmons at their great moral exposition. Nevada really seems to be itching to get wiped off Uncle Sam's map. It seems willing to pose as the "dead tough" member of the national family. -Ex.

In order to accentuate the fact. which of course is well known, that this is a shoddy administration, it is only necessary to point out that under the McKinley law in 1893-94 the shoddy imports were but 210,404 pounds while under Clevelandism and free trade the imports jumped up to 17,665,563 pounds. Cannot Miller and Burritt publish cards - like Buchanan - showing wherein they have saved the county several wagon loads of sixteen to one silver dollars?

DURING the past four years the county publishing under the Era contract has cost the county in round numbers \$6,000. Had the pop commissioners awarded the contract to THE TRIBUNE at its bid, the cost would have been \$1,500 and the county would have been \$4,500 ahead and the latter agreed to the signing. on the deal. Mr. Buchanan claims to have saved the county \$3,500, and assuming that his claims are true and honest, it shows the county is still \$1,000 loser by reason of populist government in this one item. The above statement is not political buncombe but a fact and is worthy the consideration of voters who favor good, honest government.
